

CRETE-WASH

Concrete Remover

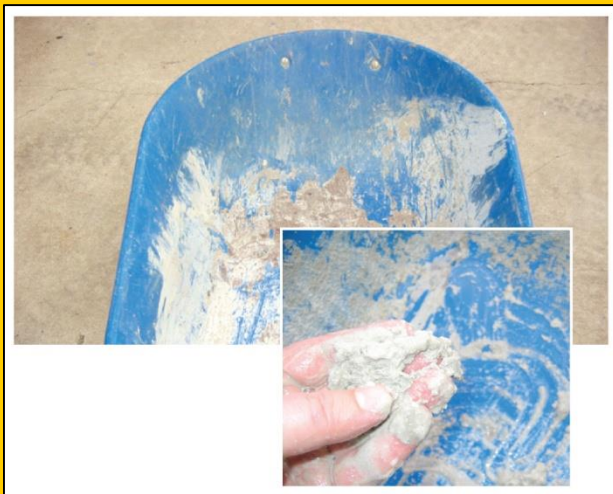

Crete-Wash is a unique and safe formulation designed to assist in the removal of concrete from aluminum, joinery, wheel barrows, concrete mixers, moulds, curb machines and tools etc.

Crete-Wash is also safe enough to use on vehicles, glass, chrome and polished aluminum.

Crete-Wash works by turning dry concrete into a mud like consistency. Depending on how long the concrete has been set, will affect how much effort and the number of applications required to remove it.

Used often, your tools and machinery will be clean of concrete

Application:

Apply with a sprayer, sponge, brush or scrub pad. Keep moist to allow soaking into thicker concrete buildup.

Agitation will assist in removal.

Rinse and air dry.

Product will rinse to clear shiny finish.

Dispose of residue safely.

Available in:

- 750ml Spray bottles
- 5lt Plastic bottles
- 15lt Plastic jerry cans
