

# MATERIAL SAFETY DATA SHEET

## Section 1: Identification

<b>Product name:</b>	Rockbond Water Reducer (RB 6.13)
<b>Recommended use:</b>	Water reducing admixture for cement and concrete.
<b>Company details:</b>	Rockbond SCP Ltd
<b>Address:</b>	7 Te Puni Street, Petone, Lower Hutt, Wellington, New Zealand 5012
<b>Telephone Number:</b>	0800 76 25 26
<b>Emergency telephone number:</b>	0800 76 25 26 (Hours of Operation 7.30am to 5pm Monday - Friday)
<b>Date of preparation:</b>	July 2019

## Section 2: Hazards Identification

<b>Hazard classification:</b>	6.5 - SENSITIZATION - Category B (Skin) This material is classified as hazardous according to criteria in the Hazardous Substances (Minimum Degrees of Hazard) Regulations 2001 and has been classified according to the Hazardous Substances (Classifications) Regulations 2001. This material is not classified as a dangerous good according to criteria in New Zealand Standard 5433:2007 Transport of Dangerous Goods on Land.
<b>Signal word :</b>	Warning
<b>Hazard statements :</b>	May cause an allergic skin reaction.
<b><u>Precautionary statements</u></b>	
<b>Prevention :</b>	Wear protective gloves. Avoid breathing vapour. Contaminated work clothing should not be allowed out of the workplace.
<b>Response :</b>	IF ON SKIN: Wash with plenty of soap and water. If skin irritation or rash occurs: Get medical advice/attention. Wash contaminated clothing before reuse.
<b>Storage :</b>	Not applicable.
<b>Disposal :</b>	Dispose of contents and container in accordance with all local, regional, national and international regulations.
<b>Other hazards which do not result in classification:</b>	None known.

**Section 3: Composition/information on ingredients**

**Substance/Mixture:** Mixture.  
**CAS number/other identifiers**  
**CAS number:** Not applicable.  
**EC number:** Mixture.  
**Product Code:** RB 6.13

Ingredient Name	%	CAS Number
4-chloro-3-methylphenol	<1	59-50-7

**There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.**  
**Occupational exposure limits, if available, are listed in Section 8.**

**Section 4: First-aid measures**

**Description of necessary first-aid measures**

**Inhalation:** Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention if adverse health effects persist or are severe. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

**Ingestion:** Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if adverse health effects persist or are severe. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

## Section 4: First-aid measures

**Skin Contact:** Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 10 minutes. Get medical attention. In the event of any complaints or symptoms, avoid further exposure. Wash clothing before reuse. Clean shoes thoroughly before reuse.

**Eye contact:** Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention if irritation occurs.

### Most important symptoms/effects, acute and delayed

#### Potential acute health effects

**Inhalation:** No known significant effects or critical hazards.

**Ingestion:** No known significant effects or critical hazards.

**Skin contact:** May cause an allergic skin reaction.

**Eye contact:** No known significant effects or critical hazards.

#### Over-exposure signs/symptoms

**Inhalation:** No specific data.

**Ingestion:** No specific data.

**Skin:** Adverse symptoms may include the following: irritation, redness.

**Eyes:** No specific data.

#### Indication of immediate medical attention and special treatment needed, if necessary

**Specific treatments:** Not available.

**Notes to physician:** No specific treatment. Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

**Protection of first-aiders:** No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

See toxicological information (Section 11)

## Section 5: Fire-fighting measures

### Extinguishing media

**Suitable:** Use an extinguishing agent suitable for the surrounding fire.

**Not suitable:** None known.

### Section 5: Fire-fighting measures

<b>Specific hazards arising from the chemical:</b>	In a fire or if heated, a pressure increase will occur and the container may burst.
<b>Hazardous thermal decomposition products:</b>	No specific data.
<b>Hazchem code:</b>	Not available.
<b>Special precautions for fire-fighters:</b>	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
<b>Special protective equipment for fire-fighters:</b>	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

### Section 6: Accidental release measures

<b>Personal precautions, protective equipment and emergency procedures:</b>	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Avoid breathing vapour or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment (see Section 8).
<b>Environmental precautions:</b>	Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
<b><u>Methods and materials for containment and cleaning up</u></b>	
<b>Small spill:</b>	Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
<b>Large spill:</b>	Stop leak if without risk. Move containers from spill area. Approach the release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13).

### **Section 6: Accidental release measures**

Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilt product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

### **Section 7: Handling and storage**

**Precautions for safe handling:** Put on appropriate personal protective equipment (see Section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapour or mist. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

**Conditions of safe storage, including any incompatibilities:**

Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.

### **Section 8: Exposure controls/personal protection**

**Control parameters**

**Occupational exposure limits**

None.

**Appropriate engineering controls:**

No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants. If this product contains ingredients with exposure limits, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure below any recommended or statutory limits.

## Section 8: Exposure controls/personal protection

**Environmental exposure controls:**

Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

**Individual protection measures**

**Hygiene measures:**

Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

**Respiratory protection:**

Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

**Hand protection:**

Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.

**Eye protection:**

Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

**Skin protection:**

Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

**Section 9: Physical and chemical properties****Appearance**

<b>Physical State:</b>	Liquid.
<b>Colour:</b>	Brown.
<b>Odour:</b>	Slightly sweetish.
<b>Odour threshold:</b>	Not available.
<b>pH:</b>	7
<b>Melting point:</b>	0°C/32OF – water.
<b>Boiling point:</b>	100°C/212°F – water.
<b>Flash point:</b>	Not applicable.
<b>Burning rate:</b>	Not applicable.
<b>Burning time:</b>	Not applicable.
<b>Evaporation rate:</b>	Not available.
<b>Flammability (solid,gas):</b>	Not available.
<b>Lower and upper explosive (flammable) limits:</b>	Not applicable.
<b>Vapour pressure:</b>	17 mm Hg @ 20°C/68°F - water.
<b>Vapour density:</b>	Not available.
<b>Density:</b>	~1.2 g/cm <sup>3</sup> [20°C (68°F)]
<b>Relative density:</b>	Not available.
<b>Solubility:</b>	Not available.
<b>Solubility in water:</b>	Not available.
<b>Partition coefficient: n-Octanol/water:</b>	Not available.
<b>Auto-ignition temperature:</b>	Not applicable.
<b>Decomposition temperature:</b>	Not available.
<b>Viscosity:</b>	Not available.

**Section 10: Stability and reactivity**

<b>Chemical stability:</b>	The product is stable.
<b>Possibility of hazardous reactions:</b>	Under normal conditions of storage and use, hazardous reactions will not occur.
<b>Conditions to avoid:</b>	No specific data.
<b>Incompatible materials:</b>	No specific data.
<b>Hazardous decomposition products:</b>	Under normal conditions of storage and use, hazardous decomposition products should not be produced.

**Section 11: Toxicological information**

**Information on the likely routes of exposure**

**Inhalation:** No known significant effects or critical hazards.  
**Ingestion:** No known significant effects or critical hazards.  
**Skin contact:** May cause an allergic skin reaction.  
**Eye contact:** No known significant effects or critical hazards.

**Symptoms related to the physical, chemical and toxicological characteristics**

**Inhalation:** No specific data.  
**Ingestion:** No specific data.  
**Skin contact:** Adverse symptoms may include the following: irritation, redness  
**Eye contact:** No specific data.

**Delayed and immediate effects and also chronic effects from short and long term exposure**

**Acute toxicity:** Not available.  
**Irritation/Corrosion:** Not available.  
**Sensitisation:** Not available.

**Potential chronic health effects**

**General:** No known significant effects or critical hazards.  
**Inhalation:** No known significant effects or critical hazards.  
**Ingestion:** No known significant effects or critical hazards.  
**Skin contact:** Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low level.  
**Eye contact:** No known significant effects or critical hazards.  
**Carcinogenicity:** No known significant effects or critical hazards.  
**Mutagenicity:** No known significant effects or critical hazards.  
**Teratogenicity:** No known significant effects or critical hazards.  
**Developmental effects:** No known significant effects or critical hazards.  
**Fertility effects:** No known significant effects or critical hazards.  
**Chronic toxicity:** Not available.  
**Carcinogenicity:** Not available.  
**Mutagenicity:** Not available.  
**Teratogenicity:** Not available.  
**Reproductive toxicity:** Not available.  
**Specific target organ toxicity:** Not available.  
**Aspiration hazard:** Not available.

**Numerical measures of toxicity**

**Acute toxicity estimates:** Not available.

**Section 12: Ecological information**

**Section 12: Ecological information**

**Bioaccumulative potential:**

Product/ingredient name	LogPow	BCF	Potential
4-chloro-3-methylphenol	0.477	8.511380382	low

**Mobility in soil**

**Soil/water partition**

**Coefficient (Koc):** Not available.

**Other adverse effects:** No known significant effects or critical hazards.

**Section 12: Ecological information**

**Ecotoxicity:** No known significant effects or critical hazards.

**Aquatic and terrestrial toxicity:** Not available.

**Persistence/degradability:** Not available.

**Section 13: Disposal considerations**

**Disposal methods:** The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

**Section 14: Transport information**

	UN number	Proper shipping name	Classes	Packaging group	Label	Additional information
<b>New Zealand Class</b>	Not regulated.		-	-		-
<b>ADG Class</b>	Not regulated.		-	-		-
<b>ADR/RID Class</b>	Not regulated.		-	-		-
<b>IATA Class</b>	Not regulated.		-	-		-
<b>IMDG Clas</b>	Not regulated.		-	-		-

**Section 15: Regulatory information**

**New Zealand Inventory of Chemicals (NZIoC):**

All Components are listed or exempted.

**HSNO Approval Number:**

HSR002544

**HSNO Group Standard:**

Construction Products (Subsidiary Hazard) Group Standard 2006

**HSNO Classification:**

6.5 - SENSITIZATION - Category B (Skin)

**Australia Inventory (AICS):**

All components are listed or exempted.

**Safety, health an Environmental regulations specific for the product:**

No known specific national and/or regional regulations applicable to this product (including its ingredients).

**Section 16: Other information**

**History**

**Date of printing:** 01.07.2019

**Date of issue/Date of revision:** 01.07.2019

**Date of previous issue:** October 2015.

**Version:** 2

**Key to abbreviations:**

ADN = European Provisions concerning the International Carriage of Dangerous Goods by Inland Waterway

ADR = The European Agreement concerning the International Carriage of Dangerous Goods by Road

ATE = Acute Toxicity Estimate

BCF = Bioconcentration Factor

GHS = Globally Harmonized System of Classification and Labelling of Chemicals

IATA = International Air Transport Association

IBC = Intermediate Bulk Container

IMDG = International Maritime Dangerous Goods

LogPow = logarithm of the octanol/water partition coefficient

MARPOL 73/78 = International Convention for the Prevention of Pollution From Ships, 1973 as modified by the Protocol of 1978.

("Marpol" = marine pollution)

RID = The Regulations concerning the International Carriage of Dangerous Goods by Rail

UN = United Nations
